FREELANCE
Vancouver, BC+Remote|2023-Present

Full Stack Developer

I work on projects locally I receive from BC and work on projects I receive at Upwork.

BHOOMI DESIGN STUDIO
Colombo, Sri Lanka |2018-2019

Junior Software Engineer

This was the first place I was exposed to a traditional IT company environment and working as a Junior Software Engineer demanded me to learn many new technologies swiftly. Mainly I worked in front-end development and most of the projects I did were HTML, JavaScript, React, Bootstrap, and CSS. Also in a few projects, I got tasks related to PHP and MySQL.

JETWING TRAVELS
Colombo, Sri Lanka |2017

Software Engineer, Intern

This is the first step of mine from university to the industrial world to understand the practical and commercial usage of Programming and Software Engineering. I learned from 0 here. GitHub, HTML, JavaScript, Angular2, Bootstrap, and CSS-related tasks were mainly assigned to me, and I learned all those things within 6 months of my internship. I worked on project Enigma an in-house project for transport management and a Meeting Room Booking system.

VANCITY
Surrey, BC |2021-2023

Marketing & Administrative Assistant

In Canada, I landed my first Job as a Marketing & Administrative Assistant. My role encompassed making Digital marketing strategies, keeping up the company website with best SEO practices, and handling the administrative tasks of the business. The tools I worked with were Google Analytics, Photoshop, and SEM Rush.

TECHNOLOGIES & SKILLS

HTML5, JavaScript, TypeScript, React.js, Angular2, Node.js, Express, Next.js, Knex.js, CSS/Sass, Bootstrap, Tailwind CSS, Material UI, Daisy UI, GSAP Web Animation, MySQL, MongoDB, Firebase, REST API, Figma, PHP, WordPress, JWT, Next.js, Adobe Fresco, Adobe Photoshop, Heroku
